

RANCH HOUSE RESTAURANT

Local Pioneer Artifacts

The history of Jackson Hole can be seen accenting the walls of the Ranch House Restaurant. These pieces were collected primarily by Slim Lawrence, long-time caretaker of the historic AMK Ranch, and amateur archaeologist who loved to collect remnants of the past. His collection grew so large that he eventually founded the Jackson Hole Museum with another local resident, Homer Richards. The artifacts on display are courtesy of the Jackson Hole Historical Society & Museum.

Horseshoe Handle Saw used by the Reclamation Contract driftwood workers in the 1920's.

Shovel with wooden handle from a storage shed in old Moran.

Two-handed hay knife from the Elk Ranch, which was the largest ranch in northern Jackson Hole.

Iron scoop and ice tongs from the AMK Ranch. In the winter months, blocks of ice would be chopped from Jackson Lake, packed in sawdust, and stored until used the following summer.

Sickle with curved wooden handle and a 32-inch blade.

Pair of wooden stirrups.

Heavy ox yoke from the Oregon Trail, found near Fossil, Wyoming. Keys were used as wedges to lock in neck sizes around the oxen.

Crude, handmade snowshoe found in a tusk cabin at the present day Grassy Lake, formerly known as Wagner Lake. Tuskers were game poachers who killed elk solely for their eye teeth, which were prized by members of Elks Lodges. Tusking continued until the Elks learned of the carnage, and stopped using the elk tusks.

A pair of short shoe skis found in the snowshoe cabin at Grassy Lake, along the old Reclamation Road which runs between Flagg Ranch and Ashton, Idaho. This and other snowshoe cabins were used in the late 1800's and early 1900's by soldiers who were responsible for protecting Yellowstone National Park at that time.

Handmade stirrups, fashioned from horseshoes, made for dudes so their feed would not slip through the stirrups and cause them to be dragged by their horse if they fell off while riding.

Beaver Traps – Jackson Hole was a prime location for trapping in the early 1800's when beaver hats were the fashion rage among upper-class gentlemen around the world.

This bucksaw was used for cutting wood the hard way found in the cabin area of old Moran.

Hay hook from Jackson Hole. This tool was used by ranchers to lift bales of hay.

Hand Sythe used for mowing grass or harvesting crops.

This miner's pick belonged to John Graul, and was found near Berry Creek.

Handmade shovel for loading coal in a sheep wagon's camp stove, found in Red Desert, Wyoming.

This single tree is a harness piece from old Moran.

Comprised of lead bars used to distribute the power of horses as they pulled a wagon, this double tree was found on Lost Creek, and came from a freight wagon bringing supplies to the area.

The wagon wheel is the only artifact in the collection that was not collected by Slim Lawrence.
